

10/2007
Dr. Smith,

I just wanted to send you a quick note that my sister, recently sent me your See-n-Read™ reading tool to help me study as I work on my masters. They are a godsend and have helped me stay focus. Returning to school at this old age (did I tell you I'm the YOUNGER sister), it been hard to do so much reading and concentrate on the topics, but I have retrained my brain and I now feel like the cells are firing on all cylinders.

Thanks again for your wonderful tool. I'll be promoting in my circle of friends.
