eSEE-N-READ™
Electronic Reading Tool
Features and Benefits

Made in the U.S.A.

Features	Benefits
eSEE-N-READ™ Shaded Window	
• Re-size shaded Window	Resize from small to full-screen by just click-holding the Window edge and dragging (for Full-Screen, just one click)
• Relocate Window anywhere on the screen	Just click-hold on the Window and drag
• Window-As-Cursor	The entire Window to acts like the mouse cursor…move from place to place on pages. Switch back to READBAR™ (see below) movement just by right-clicking, then "Customize" or press an enabled hotkey (F5)
• Full-Screen Mode	*Full-Screen Mode* covers the whole screen with the Window. Only the READBAR™ (see below) moves up and down the screen using the mouse or arrow keys. When the bottom (top) of the screen is reached using the arrow keys, the READBAR™ automatically "wraps" to the top (bottom) of the screen
• Horizontal or Vertical Mode	Change between vertical and horizontal shape with a click and/or dragging the mouse
• Shaded Transparent Window Color	The shaded transparent window can be adjusted darker or lighter depending on monitor requirements, lighting conditions or personal preference
eSEE-N-READ™ ReadBar™	
• Clear viewing/reading area	On the eSEE-N-READ™ Window, there is a *clear* rectangle called the READBAR™. The text behind the READBAR™ is the information being highlighted and read
• Type in READBAR™	Data entry limited to READBAR™; helps eliminate errors
• Move ReadBar™	Use the mouse or arrow keys to move the READBAR™ on the eSEE-N-READ™ Window. READBAR™ movement can be adjusted for "travel" distance and speed
• READBAR™ Horizontal and Vertical Mode	The READBAR™ can be changed between horizontal (row) and/or vertical (column) orientation
• READBAR™ Re-Size Mode	The READBAR™ can be changed in size, shape or location on the screen.
• Push Pin Function	When the PushPin is in, the Window will remain on top of all applications. When the PushPin is out, eSEE-N-READ™ will appear in the Taskbar and Alt-Tab list, and will no longer stay on top of all of the windows
eSEE-N-READ™ QuickTag™	
• QuickTag™ tracks and saves information in documents	QuickTag™ helps track information by saving an eSEE-N-READ™ in the current document at the *desired location* on the page! Repeated this action in multiple locations and in multiple documents. Right-click on and just select "Create QUICKTAG™". When the document is opened, eSEE-N-READ™ asks if QUICKTAG™ is to be viewed.
• Create Multiple QuickTag s™	Create multiple QUICKTAGS™ per document, *each* with their *own* document-specific settings!
• QuickTag™ names and stores your notes	Name the QUICKTAG™ and jot down QUICKTAG™ Notes. To easily organize the QuickTags™ created in any documents, each QUICKTAG™ can be named and key information notated (up to 1500 characters in length)
• View All QuickTag Mode	View All QUICKTAGS™ option is enabled when one or more QUICKTAGS™ are created. Select the View All QUICKTAG™ mode to get a dialog listing all existing QUICKTAGS™ *and* their associated documents. A QUICKTAGGED document can also be launched from this dialog by double-clicking on a listed item. One or more QUICKTAGS™ can also be cleared from this window. A function key (F6) can be enabled to rapidly create QUICKTAGS™
• Operational in MS Word and Excel	Can be used in Microsoft Word and Excel documents
eSEE-N-READ™ General	
• Automatically Saves All Changes	eSEE-N-READ™ automatically saves changes, this behavior can be turned off, including minor issues like *not* remembering size, or always opening in the center of your screen
• Three Level Help Mode	eSEE-N-READ™ *Help* provides a choice of three "levels of detail" for on-screen Help information
• ExplainIt Button	Creates an explanatory popup about each feature
• Self-Paced Tutorial	A full tutorial is built into eSEE-N-READ™ for easy learning of the application
• eSEE-N-READ™ Icon	eSEE-N-READ™ icon drops into the MS Windows Tool Tray making it easy and convenient to access. Double clicking the icon restores eSEE-N-READ™ on the screen.
